MEGA END

Diagnostic Services of Manitoba exists so that people in Manitoba have high quality laboratory and imaging services that are necessary for their health at a cost competitive with other comparable providers.

LEVEL 2 ENDS

The Board has further defined this Mega End as these 2<sup>nd</sup> level Ends.

1. Patients receive accurate test results on a timely basis all of the time.
  - 1.1 Patients are treated in a caring, respectful and dignified manner.
2. Health care providers can order diagnostic tests and receive results in a time frame that supports quality health services
3. Health care providers have timely and effective medical and technical advice related to diagnostic services
4. Researchers and third party payers can order diagnostic tests and receive results required to support approved research projects.
5. Public health agencies receive accurate and timely monitoring, detection and surveillance data to support the health of Manitobans.
